

Harness the Power of Three

3 New Larger Spot Sizes

Perform your treatments even faster and increase your throughput!

3 Key Technologies

Advanced Multiplex Technology

Automatically blends two different wavelengths to provide safer, more effective treatments than single-wavelength systems for a broad range of skin types

IPL

Harness the power of laser as well as intense pulsed light to offer more procedure options to your patients

Integrated Cooling

Saves space and increases procedure ease and efficiency

Spot Size (mm)	Specified Fluence (J/cm ²)			
	Alex	Yag		
	Elite+	Elite MPX	Elite+	Elite MPX
20	17	17	12	20
22	14	12	12	16
24	11	10	10	14

*compared to current 18mm spot size, not actual size
